Scope of ASTRO’s Journals

- Clinical trial reports and re-analyses
- Novel retrospective studies
- Natural history of disease
- Institutional series
- Systems innovations
- Basic science
- Short reports

- Basic science
- Practice innovation
- Data analytics
- Comparative effectiveness research

- High impact, original, prospective clinical trials
- Outcomes research
- Large database interrogation
- Imaging and treatment delivery innovations
- Lab studies on tumor physiology, molecular biology and normal tissue radiation response
- Critical reviews on timely topics
- Health policy contributions

- Teaching Cases
- Professionalism
- Ethics

- Guidelines, consensus statements, position statements
- Patient safety
- Quality improvement
- Imaging
- Contouring
- Radiation oncology education
- Target delineation
- Immobilization
- Maintenance of certification

OUT OF SCOPE
*Dosimetry and treatment planning of small patient numbers
