

ERRATA

Erratum to: Wallner PE, Anscher MS, Barker CA, et al. Current status and recommendations for the future of research, teaching, and testing in the biological sciences of radiation oncology: Report of the American Society for Radiation Oncology Cancer Biology/Radiation Biology Task Force, executive summary. *Int J Radiat Oncol Biol Phys* 2014;88:11-17.

The authors wish to indicate a correction to the full Task Force report published as a white paper on the ASTRO website at www.astro.org/biology, as described in the final sentence of the Acknowledgments on p 11 of the published manuscript. During collation of the references for the report's scientific sections for placement on the website, various citations were incorrectly numbered in the text. These citations have now been corrected and are referenced separately in each of the scientific sections.
